DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 3/30/05 have been fully considered but they are not persuasive. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., the meaning of "sneak path") are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). The examiner has used the broadest interpretation of a "path" to apply prior art to pending claims 10-14, unless applicant amends the claims to include enough limitations (for example the meaning of "sneak path") claims 10-14 will stand rejected under US document 6262545.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 10-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Yamamoto (US Patent 6262545).

Claims 10 and 11, Yamamoto teaches a dual speed motor drive circuit comprising a power supply 534, a potential path, and a solid-state switch (MOSFET)

Art Unit: 2837

530 connected in the potential path, wherein the first side of the switch is coupled to the power supply and the second side is coupled to a load 512 through the motor driver.

Claims 12 and 13, Yamamoto describes microcomputer 504 connected to the switch for controlling the operation of said switch.

Claim 14, Yamamoto describes switch 530 connected between the low-speed terminal of the motor and a low-speed switch found in converter 524.

Allowable Subject Matter

4. Claims 1-9 and 15-26 are allowed.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
